

Mary Skolos

Senior Full-Stack Engineer | Laravel · React · AWS · Checkout & Payments

Seattle, WA · (206) 399-2489 · maryskolos@gmail.com · maryskolos.github.io

PORTFOLIO

maryskolos.github.io

EXPERIENCE

Senior Software Engineer · Card Kingdom

2022 – Present

- Led payment gateway migration from Braintree to Authorize.Net - planning, integration, cutover, and post-launch stability across checkout and order processing.
- Rewrote checkout and order-success flows (timed checkout, PayPal, cart logic) to cut abandonment and inventory race conditions on a high-traffic storefront.
- Integrated ShipEngine and international tax platforms for accurate tracking and fulfillment.
- Built REST APIs and customer-facing features; optimized search and MySQL performance (indexing, query work, Elasticsearch) for peak traffic.
- Managed AWS/RDS and PowerBI Embedded reporting for stakeholders.

Full-Stack Developer · Lumii Inc.

2020 – 2022

- Led TALL stack (Laravel, Livewire, Alpine.js) development for health data apps on AWS via Laravel Forge.
- Led roles-and-permissions reworks to strengthen security and access control across internal and customer-facing systems.
- Owned RDS/cloud operations and deployments; instituted OWASP practices and company-wide secure coding training; mentored junior developers.

Junior Developer (Internships) · Shawn Veltman & Associates

2017 & 2018

- Built and maintained Laravel CRM and sales tracking systems with TDD; partnered with clients on features, integrations, and reliability.

SKILLS

Languages & frameworks: PHP / Laravel · React / TypeScript · REST APIs

Data & cloud: MySQL / RDS · AWS (S3, EC2, CloudWatch) · Elasticsearch / Redis

Commerce: Authorize.Net · Braintree · PayPal · ShipEngine

Practice: Git / Jira / TDD · OWASP

EDUCATION · CERTIFICATIONS · INTERESTS

Education: Coursework toward BSc Computer Science, University of Victoria (2016–2020)

Certifications: OWASP Web Security · UI/UX Design

Interests: TTRPGs · Board games · Game design
